HOPE Sheds Light is supported by friends and families directly affected by substance use disorder, and found recovery through continuous love, support and understanding.

Welcome to

OUR MISSION

The mission of HOPE Sheds Light is to raise awareness and educate individuals, families and the community about the impact of substance use disorder by having the courage to share personal experiences and offer strength, wisdom, hope and resources that lead to positive community change and long-term recovery.

OUR VISION

HOPE Sheds Light will lead a transformative movement that removes the fear and stigma surrounding the disease of addiction through a loving, recovery-driven, safe, trusting and hopeful environment that brings wellness to the community and allows families to have the courage to heal and recover.

HOPE Sheds Light is supported by friends and families directly affected by substance use disorder, and found recovery through continuous love, support and understanding.

A New Jersey Non-Profit Corporation
IRS 501(c)(3) – Tax ID: 46-3910504

OUR STORY

HOPE Sheds Light (HSL) was started after Ron Rosetto lost his son, Marc A. Rosetto to a hard-fought battle against substance abuse disorder. When the Rosetto Family was going through this very difficult time, they struggled to find the help they so desperately needed. Since the family and friends of those with addiction problems often feel isolated, ashamed, overwhelmed and hopeless, Ron, alongside friends Stephen Willis and Arvo Prima, whose sons also were battling addiction at the time, founded HSL. Shortly after, Stephen's son, Mark Kyle Willis, 31, lost his battle with the disease of addiction on September 15, 2013. A few years later, Arvo's son, Paavo Jaan Prima, 25, lost his fight with the disease on April 5, 2017.

Ron, Stephen and Arvo have since dedicated their lives to keeping their sons' legacy alive by helping others find the courage to face addiction and find recovery so that other people's sons and daughters might live. HSL believes there are many paths to recovery, but to be successful, one must have to want change and believe that change is possible.

In 2021, HSL acquired Recovery Advocates for the Shore (RAFTS), founded by Nicole Federici, to expand its recovery services throughout Ocean and Monmouth counties. Through this acquisition, HSL's goal is to create a community where non-judgmental support is standard and multiple pathways to recovery are embraced. HSL will continue to expand its services to young people and families in recovery by offering programming that will engage adolescents and young parents to effectively end the generational cycle of addiction.

2022 Resource Guide

A Note about the Guide

At the heart of HOPE Sheds Light's (HSL) mission is the desire to connect with other families who have questions about, have concerns with or who may just want to gain a deeper understanding about substance use or addiction/substance use disorder. HSL is a peer-driven organization meaning we all have a personal connection to addiction and recovery. We developed this guide to be user friendly and to serve as a tool for other families like ours who didn't know where to begin or how to access help when we needed it the most. Most importantly, we created this guide in order to Shed Light on the HOPE that can be lost for many families. HOPE that support is close by, that you are not alone and that Recovery happens.

Whether you are a family member of a loved one who is not yet in recovery, an individual seeking support, a member of a family celebrating recovery, a family member who lost a loved one to the disease of addiction or a friend or ally of recovery, this guide is meant for you.

Please remember, if at any point you feel as though you need immediate assistance, we encourage you to reach out to our helpline at 855.850.HOPE for additional support.

Getting Started

There is nothing easy about finding help. Unfortunately, the system and the process is not very straightforward. There are various types and levels of care and knowing which approach and/or level of care can be tricky. In addition, navigating the many insurance plans can leave some people even more confused and stressed. We designed this resource guide to provide contact information that ranges from self-help options to more clinical/treatment options based on the different 'levels of care'. We have also included information on various Recovery Support programs. This is a quick guide, we encourage you to go to our website for more detail on insurance navigation and determining what level of care is most appropriate.
